

Your Data's Mate

www.iteknowlogy.in

iTeknowlogy is a specialized Backup and Disaster Recovery service provider helping businesses protect critical data, applications, and IT infrastructure from outages, cyberattacks, and accidental loss. With a focus on reliability and simplicity, we design solutions that keep your business online and your data recoverable when it matters most.

We become an extension of your IT team, ensuring backups are not just taken but restorable and rigorously tested. When an incident strikes, you aren't scrambling—you're recovering, fast and with minimal disruption. Once you trust us, we become your data's trusted mate—treating it as our own.

iTeknowlogy eliminates the need for backup administration, reducing the burden of additional personnel costs.

We don't employ dedicated sales staff; instead, our Technology Advisors handle all technical queries, billing, and support with expertise and transparency. This direct, engineer-led model builds lasting partnerships focused on your success.

Core Values

To empower businesses of all sizes to protect their critical data with reliable, innovative, and cost-effective backup and disaster recovery services, ensuring they can recover quickly and confidently from any disruption.

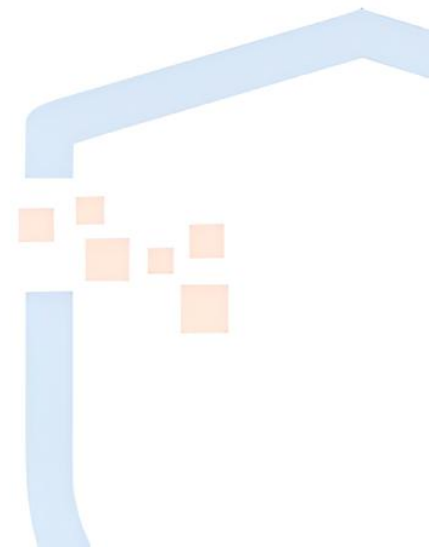

To be the first and most trusted choice for every business when they think of data protection, recognized for uncompromising reliability, rapid response in disasters, and exceptional service value.

Core Values

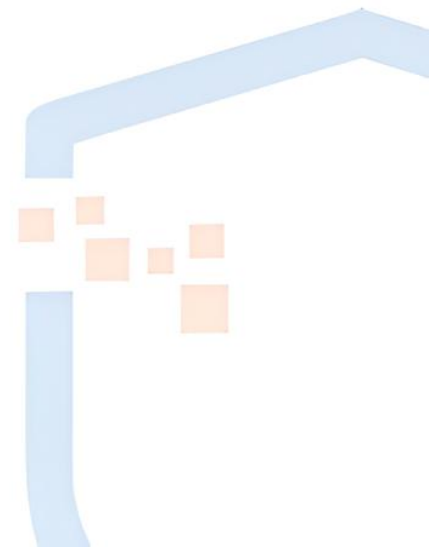

- ✓ Trust – We stand by our customers during every disaster
- ✓ Reliability – Always-on data protection
- ✓ Innovation – Smarter solutions for evolving needs
- ✓ Integrity – Transparent and ethical operations
- ✓ Affordability – Premium protection without premium cost

Our Services

- Backup & Disaster Recovery (BDR) Solutions
 - Design, implement, and manage comprehensive BDR solutions tailored to your business needs
 - Support for physical servers, virtual environments (Hyper-V, VMware, Nutanix, Proxmox), NAS devices, and cloud workloads
 - Immutable backups to combat ransomware and modern threats
 - Regular monitoring and incident response support

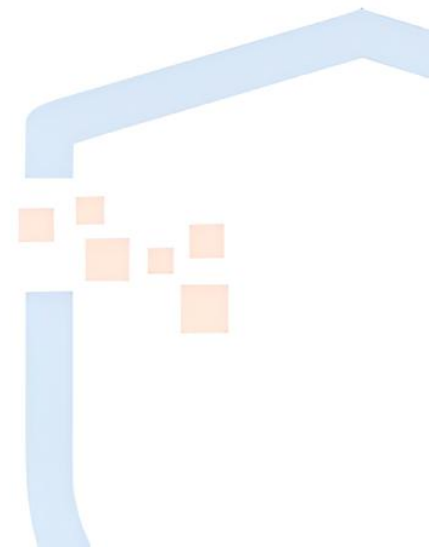

Our Services

➤ Offsite Replication & Air-Gapped Backup

- Secure replication of backup data to offsite locations for enhanced redundancy and resilience.
- Real-time VMware VM replication to ensure high availability and minimal downtime.
- Air-gapped tape backups to protect critical data from cyber threats and network-based attacks.

Our Services

➤ Scheduled Disaster Recovery Drills

- Conduct monthly, quarterly, or annual DR drills with documented test reports
- Validate recovery time objectives (RTO) and recovery point objectives (RPO)
- Ensure your team knows exactly what to do when disaster strikes

➤ Hassle-Free Data & System Recovery

- Hassle-free data and system recovery when incidents occur
- Granular file recovery or full system restoration
- Expert guidance throughout the recovery process

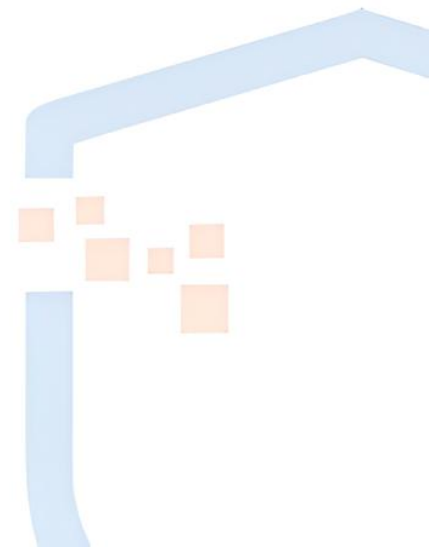

Our Services

➤ Managed Backup Services

- Proactive monitoring, alerting, and reporting
- Regular backup verification and health checks
- Cloud and hybrid backup integrations

➤ Advisory & Consulting

- BDR strategy development and assessment
- Compliance support and documentation
- Technology stack optimization for backup infrastructure

Technology Expertise

Target Clientele

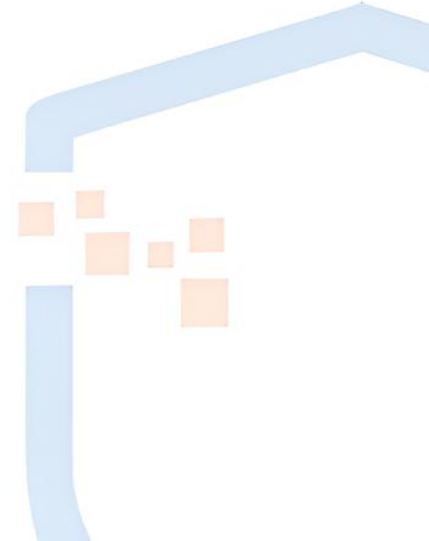

- Businesses requiring reliable data protection
- Organizations running critical workloads on Windows/Linux servers, NAS, and virtualized environments
- Businesses needing compliance-ready backup documentation and DR testing
- Companies seeking project-based implementation or ongoing managed backup services

Why Choose iTeknowlogy

- Engineer-Led Support: Direct access to Technology Advisors with no sales middlemen. Get technical answers and support from experts who understand your infrastructure.
- Tested & Proven Recovery: Regular DR drills ensure your backups work when you need them. We don't just backup—we verify recoverability.
- Immutable Protection: Advanced safeguards against ransomware and data corruption using immutable backup technologies and secure storage.

Why Choose iTeknowlogy

- Tailored Solutions: Custom BDR strategies designed for your specific business needs, infrastructure, and recovery requirements.
- Regular Monitoring: Proactive alerts and continuous backup health monitoring to catch issues before they become problems.
- Deal Registration: We maintain a streamlined and professional deal registration process, ensuring every transaction is handled with transparency, accuracy, and integrity.

Strategic Partnerships

NAKIVO

We are proud partners with Nakivo, a leading innovator in data protection solutions worldwide. This partnership enables us to deliver cutting-edge backup and recovery technologies to you.

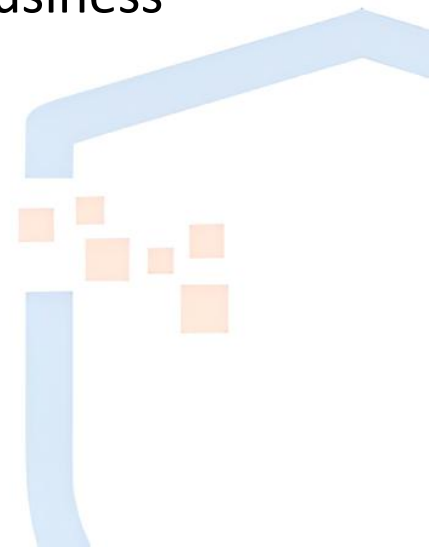

NAKIVO®

Our Commitment

“Your data becomes our data. We treat it with the same care, urgency, and protection we would demand for our own business-critical information.”

This isn't just a tagline—it's how we operate. When you entrust iTeknowlogy with your backup and disaster recovery, you're gaining a partner who is personally invested in your data's safety and your business continuity.

Service Areas

Our services are now available across Karnataka, Kerala, Tamil Nadu, Telangana, Andhra Pradesh and Maharashtra.

Your Business. Protected.
